

See reverse side for more information

- 25.5 HP Kawasaki Engine
- 52" or 60" Cutting Width
- 7 Gallon Fuel Tank
- Joystick or Twin Lever Steering
- Wide Front Step
- Stand-Up Deck
- ContourDTS™

ContourDTS™

Engineered around a central pivoting front axle, ContourDTS allows the front axle of the mower to rotate horizontally, absorbing bumps & imperfections, offering a smoother - more comfortable ride. As terrain changes, the pivoting axle keeps all 4 tires on the ground for maximum traction. The deck is independently suspended from each side of the pivoting front axle, guided by each front wheel. This allows each side of the deck to independently track to the contour of the ground, preventing dipping & scalping for an unrivaled quality of cut.

Access

The Charger is equipped with our stand-up deck. It has never been easier to access the underside of the deck for cleaning and maintenance. This also gives you easy access to the spindles, which are field serviceable so you can get back to mowing quickly.

Stability

The Charger is designed with the fuel tank under the seat for stability and protection. This provides a low center of gravity, which, along with wide rear tires, provides better traction and steadiness on slopes. The Charger also comes standard with ROPS (Roll Over Protection System) and seat belt for added safety.

COUNTRY CLIPPER ZERO TURN MOWERS

CHARGER

Innovative Deck Design

Stand-Up Deck

- Easy Access to Underside of Deck for Maintenance and Cleaning
- No Tools Needed
- Process Takes Less Than 60 Seconds

Rugged Deck Construction

- Welded 10 Gauge Steel Shell
- Reinforced with 10 Gauge Steel Plates
- 3/8" Wear Guard on Trim Edge
- Protective Bullnose on Leading Edge of Deck
- High Impact Anti-Scalp Rollers

Industry Proven Steering

Joystick Steering

- Exclusive to Country Clipper Mowers
- Leaves You with a Free Hand
- Easy to Learn
- Fun to Use!

Twin Lever Steering

Accessories

- Bagger
- Mulch Kit
- Hitch Kit
- Hand Jack
- Power Lift Kit
- Hand Rail
- Push Blade
- Light Kit
